

# PRE-ALLOCATION ANNOUNCEMENT | 12 JULY 2019

## Southern Connected System

### Water Trading Restrictions

**NSW to VIC is open** with 198.3 GL of net trade currently allowed from NSW to VIC, due to current risk of spill in the Murray still being below 50%.

**Goulburn out trade is open** with Goulburn's IVT account having a positive balance of 31.6 GL.

**Goulburn in trade is open** as the total volume owed to the Murray system is still greater than zero.

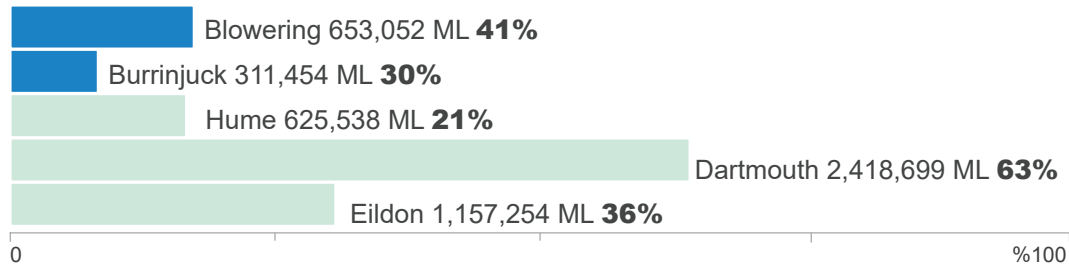

**Murrumbidgee to Murray is open** with capacity for 74.1 GL to be transferred out of the Murrumbidgee valley.

**Murray to Murrumbidgee is open** with capacity for 25.9 GL to be transferred into the Murrumbidgee valley.

**Barmah Choke is still closed.**

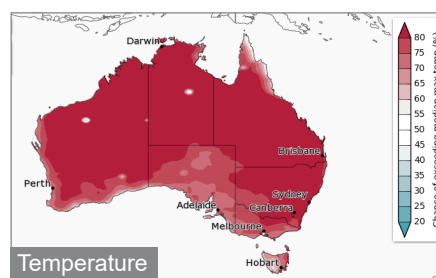

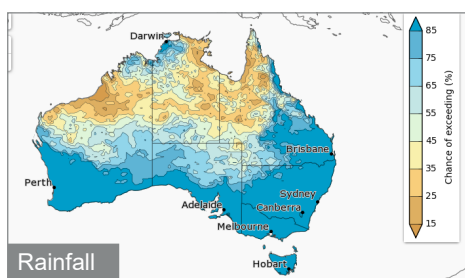

**Lower Darling River is still closed** to temp trade with the Murray.

### Southern Connected System Storage

### BOM Climate Outlook Overview for Aug - Oct 2019

August to October likely drier for large parts of the country, including the northern half of Australia, southwest WA, most of NSW, Victoria, southeast SA and northern Tasmania. August is likely to be drier for the far southwest of WA, the northern NT and northern and eastern Queensland. The rest of the country has roughly equal chances of a wetter or drier than average month. Historical outlook accuracy for August to October is moderate to high for most of the country but low in parts of southeast Australia.

### Temporary Water Pricing

REGION	
VIC 1A	\$646/ML
VIC 6/7	\$646/ML
NSW 10/11	\$646/ML
NSW Murrumbidgee	\$646/ML
