

PRE-ALLOCATION ANNOUNCEMENT | 31 JULY 2019

Southern Connected System

Water Trading Restrictions

NSW to Victoria is open with 195.7 GL of net trade currently allowed from NSW to Vic, due to current risk of spill in the Murray still being below 50%.

Goulburn out trade is closed on the Waterfind system with Goulburn's IVT account having a positive balance of 866 ML.

Goulburn in trade is open as the total volume owed to the Murray system is still greater than zero

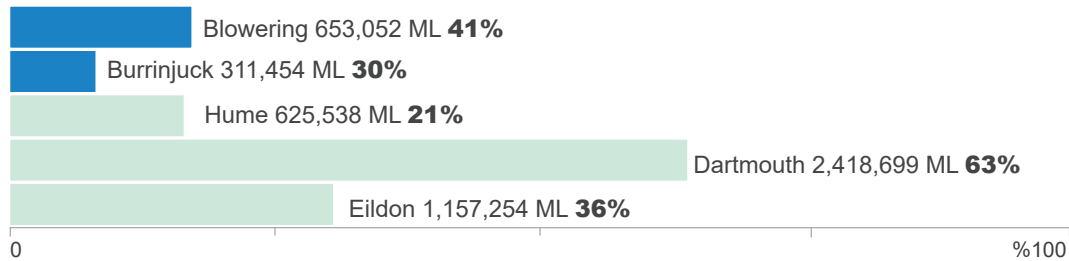

Murrumbidgee to Murray is open with capacity for 62.6 GL to be transferred out of the Murrumbidgee valley.

Murray to Murrumbidgee is open with capacity for 37.4GL to be transferred into the Murrumbidgee valley.

Barmah Choke is still closed.

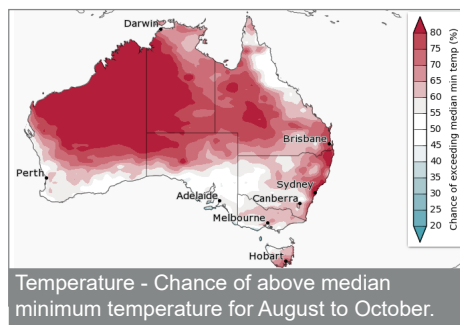

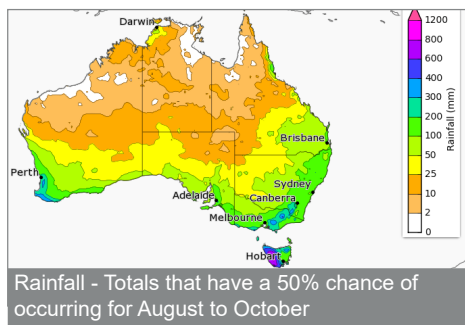

Lower Darling River is still closed to temporary trade with the Murray.

Southern Connected System Storage

BOM Climate Outlook Overview for Aug - Oct 2019

A drier than average August to October is likely for large parts of the country, including much of eastern and northern Australia and parts of southwest WA and southern SA. The month of August is likely to be drier over the tropical north and extending down eastern Queensland and NSW into northern Victoria. Conversely, southeast WA is likely to be wetter than average, with the rest of the country having roughly equal chances of a wetter or drier than average month.

Temporary Water Pricing

REGION	
VIC 1A	\$615/ML
VIC 6/7	\$615/ML
NSW 10/	\$600/ML
NSW 11/	\$610/ML
NSW Murrumbidgee	\$610/ML
SA	\$614/ML
